

# Manxman Digital Screen Advertising

Showcase your brand in style with 20-second advert slots displayed on screens throughout the Manxman vessel. Your message will run as part of a 6-minute loop, ensuring frequent exposure to passengers in high-traffic areas.

For even greater impact, take advantage of pre-roll ads with sound, featured before films on cabin TVs and passengers' personal devices during onboard streaming.

As one of the most sought-after advertising platforms on the Isle of Man, the Manxman offers a unique opportunity to captivate a diverse audience. **Don't miss your chance—secure your spot today!**
